

**Are you a government employee?
Do you have a workplace giving campaign?
You can support the Gerson Institute with a payroll donation!
CANCER CURING SOCIETY -- CFC # 11266**

If you work for the post office, military, or in another federal job, you may have heard of the Combined Federal Campaign, a way for government employees to support different charities by making a donation from their paychecks. Employees start their pledges in September. **If you participate in this campaign, please consider making us your charity this year and help us bring hope and healing to people across the world.**

If you would like to promote the Gerson Institute at your workplace campaign, please contact Mika at mpaydentravlers@gerson.org for more information. **If you are not a federal employee but know others who are, please tell them to consider donating to the Gerson Institute this year.**

**Important: We are listed in as "Cancer Curing Society" (NOT the Gerson Institute) and we are a member of the Health & Medical Research Charities of America.
CANCER CURING SOCIETY -- CFC # 11266**

[Or give a recurring donation directly to the Gerson Institute!](#)
